Vijay Kumar Srivastava Target Role: Senior Software Engineer — Tech Lead (SFMC Focus)
Noida | +91-9807969454 | vijay.kr809@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY Forward-thinking senior engineer with over five years of professional experience and a proven record of taking end-to-end ownership of complex enterprise systems. Recognized as Developer of the Quarter for delivering high-impact front-end architecture, and celebrated for resolving technical debt, orchestrating performance refactors, and mentoring engineering pods to elevate team velocity and code quality.

RELEVANT SKILLS • Languages: JavaScript (ES6+), TypeScript, Python • Front-end & Mobile: React, HTML/CSS (core front-end stack used in all projects) • Backend: Node.js, Django • Engineering Practices: Git, Jira, CI/CD pipelines, Automated Testing (Cypress, Playwright) • Leadership: Agile team lead, sprint planning, technical guidance and code reviews • Performance Optimization: Core Web Vitals improvements, state-management restructuring, modular architecture

PROFESSIONAL EXPERIENCE Ksolves India Ltd., Noida, Uttar Pradesh Senior Software Engineer | December 2024 – Present Project: Enterprise Building Management System (NDA) – Architected a greenfield insurance module from concept to production release, establishing front-end architectural standards for core business workflows. – Engineered a critical performance refactor of the monolithic creation flow by separating global Redux state from local Context API, eliminating prop drilling and unoptimized DOM re-renders. – Achieved strict Core Web Vitals thresholds: reduced Largest Contentful Paint (LCP) from 8 s to 2 s and Interaction to Next Paint (INP) from 1500 ms to <100 ms. – Assumed proactive Agile leadership for a four-engineer pod, translating product requirements into technical epics and sprint tickets to maintain continuous team velocity. – Enforced >80 % automated test coverage across multiple iterations; orchestrated QA workflows alongside feature development. – Modernized testing architecture by implementing Playwright while maintaining legacy Cypress suites. – Conducted rigorous peer code reviews and executed AIO test validations during major releases, ensuring deployment stability.

Software Engineer | December 2020 – November 2024 Project: Enterprise Learning Integrations (NDA) – Delivered complex React.js UI components for cross-platform integration widgets across Microsoft Teams, GSuite, and ServiceNow. – Implemented advanced state management with Redux and Context API to synchronize data between embedded widgets and parent applications. – Maintained performance standards by building optimized functional components and robust Node.js APIs, minimizing memory footprint within host environments.

Project: Cross-Platform Hospitality Management (NDA) – Developed responsive cross-platform mobile interfaces using React Native; translated UX requirements into seamless user flows for patrons and staff. – Integrated front-end state with RESTful

back-ends and third-party authentication platforms, debugging rendering issues and optimizing component lifecycles across devices.

Software Engineer Intern | May 2020 – November 2020 – Rapidly acquired proficiency in modern front-end frameworks and engineering best practices, leading to a full-time offer as a Software Engineer.

KEY ARCHITECTURAL PROJECTS MindFul Scrolling (Digital Wellbeing Application) • Kotlin/Jetpack Compose stack; designed reliable digital wellbeing utility with low-latency tracking of foreground apps. • Architected resilient session management using Kotlin Coroutines and Flows, implementing cooldown/debounce logic.

Sports Betting Simulator Engine • React.js front-end with FastAPI back-end handling live odds and bankroll management. • Real-time data streaming to keep UI synchronized during simulated events.

Gen-Box LLM Integration • Python/LangChain integration for automating data processing and query resolution, engineering contextual prompt pipelines.

EDUCATION Bachelor of Technology (B.Tech) – Computer Science & Engineering | 2020 Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow Diploma – Information Technology | Board of Technical Education Uttar Pradesh (BTEUP), Lucknow
