Vijay Kumar Srivastava Senior Software Engineer – Tech Lead Noida | +91-9807969454 | vijay.kr809@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY Seasoned Senior Software Engineer with over five years of experience delivering end-to-end solutions in web and mobile domains. Recognized as Developer of the Quarter for pioneering scalable frontend architecture, and known for taking full ownership of complex enterprise systems. Proven record in resolving technical debt, executing performance optimisations, leading small engineering pods, and integrating generative AI capabilities.

TECHNICAL SKILLS Languages: TypeScript (ES6+), JavaScript, Python Front-End & Mobile: React, React Native, Android Back-End: Node.js, Django Testing & CI/CD: Cypress, Playwright, Git, Jira, VS Code, automated pipelines AI/ML: LangChain, generative AI APIs, WebSockets, FastAPI Other: RESTful API design, event-driven patterns, asynchronous workflows, secure identity patterns (basic), caching concepts

PROFESSIONAL EXPERIENCE Ksolves India Ltd., Noida, Uttar Pradesh Senior Software Engineer | December 2024 – Present • Designed and implemented a greenfield Insurance module from concept to production release, establishing component-based architecture and reusable design patterns for a core business workflow. • Conducted a critical performance refactor of the monolithic creation flow: segregated global state (Redux) from local form state (Context API), eliminating unnecessary re-renders and reducing LCP from 8s to 2s. • Maintained >80% automated test coverage across product iterations, orchestrating QA workflows alongside feature development. • Modernised testing infrastructure by introducing Playwright for new builds while preserving legacy Cypress suites for existing releases. • Led a four-engineer Agile pod, translating high-level product requirements into technical epics and sprint tickets to sustain continuous velocity. • Championed code reviews, peer feedback, and deployment stability through rigorous peer reviews and AI-assisted quality checks.

Software Engineer | December 2020 – November 2024 Enterprise Learning Integrations (NDA) • Delivered complex React.js UI components for a cross-platform integration widget used in Microsoft Teams, GSuite, and ServiceNow, ensuring seamless data sync via Redux and Context API. Cross-Platform Hospitality Management (NDA) • Developed responsive mobile interfaces with React Native, integrating RESTful APIs and third-party authentication services.

Software Engineer Intern | May 2020 – November 2020 Rapidly acquired proficiency in modern frontend frameworks and engineering best practices, leading to a full-time offer.

KEY ARCHITECTURAL PROJECTS Gen-Box LLM Integration • Spearheaded the integration of Large Language Models using LangChain and generative AI APIs to automate data processing and complex query resolution. Sports Betting Simulator Engine • Architected a high-throughput simulator with React.js frontend, FastAPI backend, and WebSockets for real-time data streaming. MindFul Scrolling (Digital Wellbeing App) • Built an Android

application with Kotlin and Jetpack Compose featuring foreground services and UsageStatsManager for continuous low-latency app tracking.

EDUCATION Bachelor of Technology – Computer Science & Engineering | 2020 | Dr. A.P.J. Abdul Kalam Technical University, Lucknow Diploma – Information Technology | 2018 | Board of Technical Education Uttar Pradesh
