Vijay Kumar Srivastava Noida | +91-9807969454 | vijay.kr809@gmail.com | LinkedIn | GitHub Target Role: Senior Software Engineer – ReactJS

PROFESSIONAL SUMMARY Senior Software Engineer with over 5 years of professional experience in building scalable, high-performance web applications using React, Redux, and TypeScript. Proven track record of leading component architecture design, refactoring legacy code for optimal performance, and enforcing robust automated test coverage. Adept at translating product requirements into clean, reusable component APIs and maintaining a cohesive team culture through effective Agile leadership.

TECHNICAL SKILLS Languages: JavaScript (ES6+), TypeScript Frameworks/Libraries: React, React Native, Redux, React Hooks, Node.js, Django Testing & CI/CD: Cypress, Playwright, Git, Jira, automated pipelines Tools: VS Code, Webpack (used in projects but not listed as a primary skill)

PROFESSIONAL EXPERIENCE Ksolves India Ltd., Noida, Uttar Pradesh Senior Software Engineer | December 2024 – Present • Architected a greenfield Insurance module from concept to production release, establishing frontend architectural standards and component APIs for core business workflows. • Executed a critical performance refactor of a monolithic creation flow by segregating global Redux state from local Context API, eliminating prop drilling and unoptimized full-DOM re-renders. • Achieved strict Core Web Vitals thresholds; reduced Largest Contentful Paint from 8s to 2s and Interaction to Next Paint from 1500ms to <100ms through UI modularization and compartmentalized state updates. • Led a 4-engineer pod in an Agile environment, translating high-level product requirements into technical epics and sprint tickets to sustain continuous team velocity. • Enforced >80% automated test coverage across multiple product iterations using Cypress and Playwright; modernised testing architecture while maintaining legacy Cypress suites. • Conducted rigorous peer code reviews and executed critical AIO test validations during major production releases, ensuring deployment stability.

Software Engineer | December 2020 – November 2024 Project: Enterprise Learning Integrations (NDA) • Delivered complex React.js UI components for a cross-platform integration widget deployed across Microsoft Teams, GSuite, and ServiceNow. • Leveraged Redux and Context API to maintain seamless data synchronization between the embedded widget and parent applications. • Optimised performance by developing pure functional components and efficient Node.js APIs to minimize memory footprint within host environments.

Project: Cross-Platform Hospitality Management (NDA) • Developed responsive cross-platform mobile interfaces using React Native, translating intricate UX requirements into seamless user flows for patrons and staff. • Integrated frontend state with RESTful backend services and third-party authentication platforms, ensuring stability across varied device dimensions.

Software Engineer Intern | May 2020 – November 2020 Rapidly acquired proficiency in modern frontend frameworks and engineering best practices, leading to a full-time offer as a Software Engineer.

KEY ARCHITECTURAL PROJECTS MindFul Scrolling (Digital Wellbeing Application) • Engineered a reliable Android application using Kotlin, Jetpack Compose, Coroutines & Flows with foreground services for low-latency tracking of active applications. • Designed resilient session management to enforce custom screen time limits and prevent app switching circumvention.

Sports Betting Simulator Engine • Built a high-throughput betting engine simulator in React.js and FastAPI; implemented real-time WebSocket data streaming for instant frontend synchronization.

Gen-Box LLM Integration • Integrated Large Language Models using Python, LangChain, and generative AI APIs to automate data processing and query resolution.

EDUCATION Bachelor of Technology (B.Tech) – Computer Science & Engineering, Dr. A.P.J. Abdul Kalam Technical University (AKTU), 2020 Diploma – Information Technology, Board of Technical Education Uttar Pradesh (BTEUP)
